No. 216 RIVER STREET.

Entered according to Act of Congress in the year 1863, by ADAMS, SAMPSON & Co., in the Clerk's Office of the District Court of the Northern District of New York.

PREFACE.

We herewith present the "Troy Directory" for the current year and ask in its behalf the generous consideration of the public. Our canvassers have labored under extraordinary difficulties in collecting the names for the work. They have often been confounded with enrolling officers, and in some localities, have encountered every imaginable obstruction, as a consequence. Still, by perseverance, all obstacles have been surmounted, and this issue will be found, if possible, more accurate than any of its predecessors. An occasional error, however, may be found, but extreme caution should be used before pronouncing the work faulty, as there are many names spelled entirely different which are pronounced exactly alike; and as the names are arranged strictly alphabetically, a person looking at only one form of spelling a name might declare it omitted, when, in fact, it would be correctly and completely inserted. For instance: *Thompson*, *Thomson* and *Tomson* are three different ways of spelling the same name, but the different forms of spelling are widely separated by an alphabetical arrangement. We say these few words of explanation because complaints sometimes reach our ears which a knowledge of the above fact would prevent.

The price has been raised this year from $1.00 to $1.25. This has been found necessary on account of the greatly augmented cost of paper, printing and labor, and will be appreciated by every business man who will compare his own present expenses, with what they were last year. We are glad to know that this change meets with the entire approval of such of our patrons as we have consulted on the subject. We take this opportunity to extend our congratulations upon the rapid recovery of our city from the fearful effects of the great fire of last year. It is a high tribute to the energy and enterprise of our citizens that so few evidences of its terrible ravages now exist, and bespeaks a future, glorious and prosperous.

The continued patronage of the business men of the city is requested, for it is from them that the principal support of the work must come, but we also ask the assistance of all, to the extent, at least, of purchasing a copy, as we really need greater encouragement in this undertaking on account of the great amount of information furnished, including West Troy, Green Island and Lansingburgh, and which subjects us to a heavy expense.

We beg to return our especial thanks to the press and to our advertising patrons for their many favors, and we would call the attention of business men to our advertising index, where will be found the names of many prominent firms in every branch of industry.

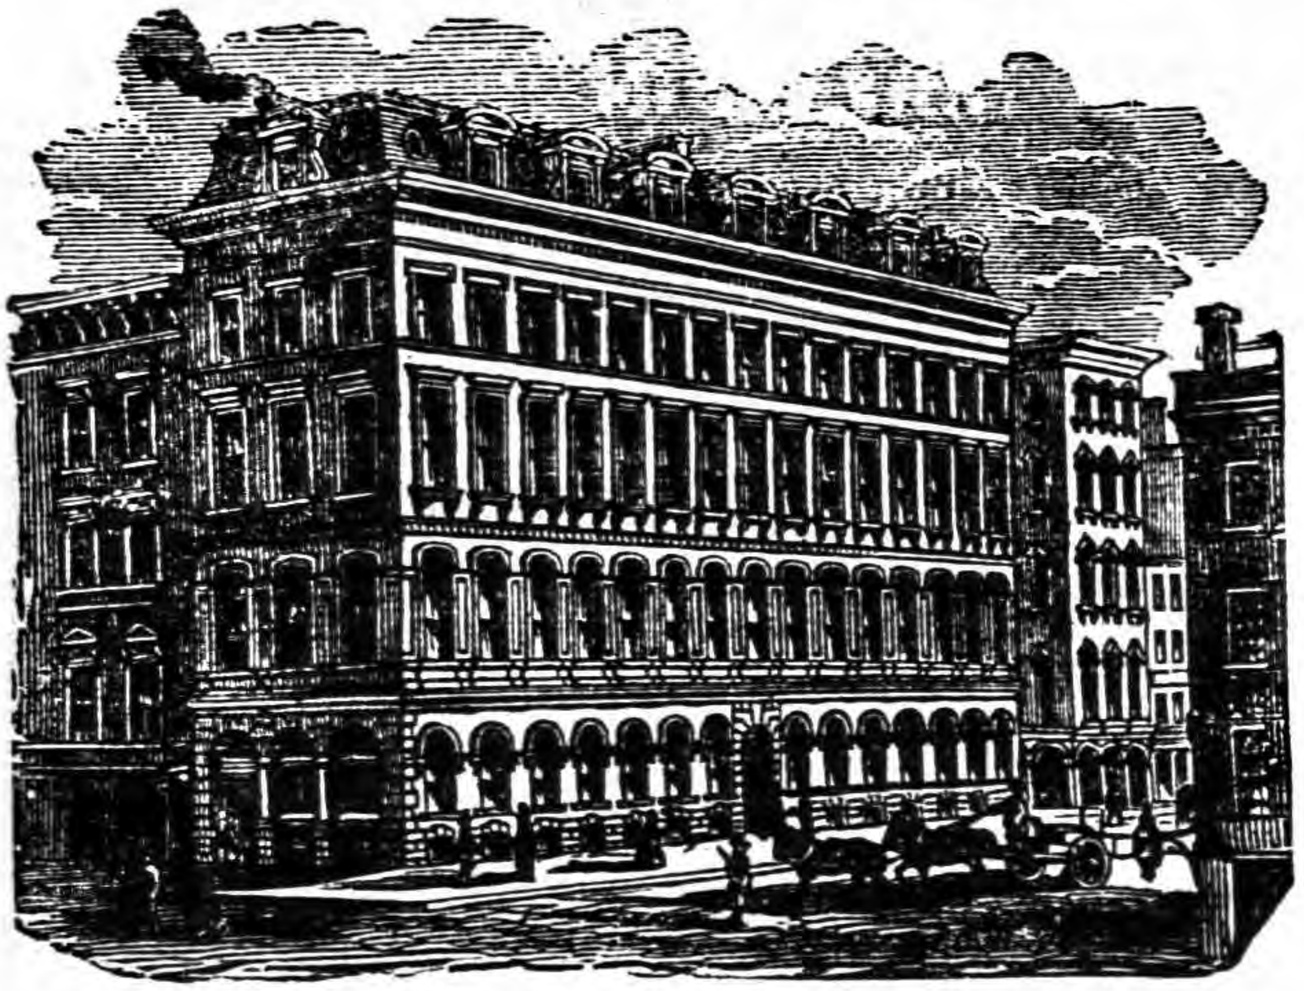
NEW ENGLAND



MUTUAL LIFE INS. CO.

BOSTON AND NEW YORK,

Company's Building,

110 BROADWAY, COR. PINE ST., N. Y.

WILLARD PHILLIPS, Pres't. **B. F. STEVENS, Sec'y.**

CASH ACCUMULATION, $2,500,000.

This is the oldest wholly Mutual Life Insurance Company in the United States, having been organized in 1843, and has been uniformly successful, having always made large returns in cash dividends to all the policy holders. Last cash dividend 39 per cent.

It is strictly a benevolent institution for mutual protection, and entirely beneficent in all its workings and tendencies.

By the last report of the Insurance Commissioners, the surplus of assets OVER liabilities was **$1,250,000,** being proportionately greater than any Life Insurance Company in the United States. Expenses proportionately "LESS" than any other company.

This Company, being purely mutual, insures at the lowest possible rates; and if the premiums paid exceed the ACTUAL cost, the surplus is returned to the parties insuring.

Every fifth year, at the time of declaring the dividends, the business is, as it were, closed, so that its actual position and solvency are made manifest at that time, and the surplus funds are divided PRO RATA among all the insured. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guaranty as regards the future.

Insurance may be effected for the benefit of married women, beyond the reach of their husbands' creditors. Creditors may insure the lives of debtors.

Printed documents of an interesting character, showing the benefits of the mutual plan and the advantages generally of life insurance, supplied gratis, or forwarded free of expense, by addressing

JOHN HOPPER, Agent for the Company,

COMPANY'S BUILDING,

110 Broadway, corner of Pine Street, N. Y. City.

☞ Parties at a distance may insure from blanks, which will be supplied and forwarded free of expense.

PROSPECTUS OF THE

NATIONAL QUARTERLY REVIEW

FOR 1863.

The liberal increasing patronage extended to our journal affords us the most gratifying proof that in exposing shams of all kinds, we enjoy the approbation of the educated and enlightened in all parts of the country. Nor have we to rely on mere inference. Were we to avail ourselves of private letters emphatically commending our course, we could fill columns with the briefest extracts from those of distinguished men and women, including authors, artists, lawyers, clergymen of different denominations, chancellors and professors of colleges, principals of academies, seminaries and schools. Now that the work is so well known, it is not necessary to quote the various first-class journals which assign it the highest rank.

We assure our readers that no amount of abuse, however scurrilous, no threats, however furious, will deter us from unmasking what seems calculated to impose on public confidence; but we will abuse nobody, nor make any attack on private character. Legitimate criticism and satire are our only weapons.

While it affords none more pleasure to do justice to the merits of a good book, we shall continue to criticise those of the opposite character. Other periodicals may publish eulogies on the works we condemn as well as on all others of which they speak, and be largely quoted by the publishers for their pains. But we will enter into no such collusion; we will not leave it in any body's power to quote the "NATIONAL QUARTERLY" as having represented the spurious counterfeit as the genuine article. A notice in a paper, which must necessarily be brief, may indeed be more appreciative than the character of the work noticed deserves, and yet not imply any dishonesty or bad faith on the part of the editor; but a Quarterly ought to make some attempt at separating the wheat from the chaff, otherwise it is simply a *puffing* machine, not a *Review*.

Education in every form, including Art and Science, will receive prominent and friendly attention in the "NATIONAL QUARTERLY;" and whatever seems calculated to retard or vitiate it, whether under the name of a text-book, a painting, a seminary, a gallery, or a college, will be subjected to fearless, but fair and temperate criticism.

In short, all subjects of public interest will be discussed in the Review, but without any sectarian or political bias; in a word, no pains or expense will be spared to render it worthy of the character assigned to it by the leading organs of public opinion, at home and abroad, namely, "*the best of American Quarterlies.*"

The June Number commences the Seventh Volume.

TERMS—$3 a year, in advance. Single numbers, $1. No deduction from regular subscription.

The work is to be had from Agents in all parts of the United States and British America.

Orders for specimen copies must, in all cases, be accompanied with 75 cents in American postage stamps.

Her bold and enlightened treatment of many of the most formidable diseases with which the human family is afflicted, has gained for her the reputation of one of the most successful Physicians of the nineteenth century.

She invites the attention of those laboring under any of the various characters or forms of diseases, such as

PETROLEUM ROOFING VARNISH
(OR PAINT).

A New and Perfect Protection against the Elements.

It is superior to any other Roofing Paint for the following reasons:

1st. Its perfect elasticity, which is sufficient to withstand any change of climate.

2d. The unequaled durability, it has to all appearance after four years' trial on the Salt Works and other tests it has proved practically imperishable.

3d. Its imperviousness to dampness and water.

4th. Its fire proof qualities.

5th. It adheres to the tin or iron firmly,

6th. It will not stain or scent cistern water.

7th. The tough nature of which this material is composed will resist boiling hot water while green on the roof.

8th. It also refracts the rays of the sun, making the roof cooler in summer than tin or slate.

We will engage to paint tin or iron roofs for one cent per square foot, and keep them painted for five years for the price above stated ($1 per square).
